

Diffuse-reflective sensors with background rejection and terminal strip connection

- DC or AC/DC supply voltage
- Short-circuit protected dual transistor outputs (NPN oder PNP) or relay output with 1 change over contact (light-on/dark-on selectable)
- Reverse polarity protection and power-up output suppression
- Light reserve warning indicator
- Electronically adjustable background rejection
- Plug-in terminal strip connector
- Options:
 - timer with selectable timing functions (on AC/DC sensors)
 - test input (on DC sensors)
 - light reserve warning output (on DC sensors)
- EMC tested according to IEC 801 and EN 50081-2/EN 50082-2
